North-East India (NER) Cultural & Visual Authenticity Audit Report

VERSION 1.0

REGION: ASSAM & MEGHALAYA

SMART INDIA HACKATHON

ACTIONABLE REPLACEMENT PLAN

1. Executive Summary & Goals

This audit details every AI-generated, Pinterest-style, or generic stock placeholder image, pan-Indian name, and non-regional asset in the Smriti platform codebase. It defines authentic, culturally accurate North-East Indian (NER) replacements with specific real photographic guidelines for Assam, Meghalaya (Khasi), and neighboring North-Eastern states.

2. Patient & Caregiver Demographics Audit

CURRENT PLACEHOLDER 1

Patient 1: Ramesh Sharma (Guwahati, Assam)

Code Location: mockData.js (L18), backend/seed.js (L75)

Current Flaws: "Sharma" is a pan-Indian surname that does not distinctively convey indigenous Assamese identity. The avatar image (Unsplash photo-1582750433449-648ed127bb54) is a generic studio stock photo in a western hospital setting.

AUTHENTIC NER REPLACEMENT

Recommended: Biren Gogoi / Bipul Hazarika / Pranab Saikia

Authentic Cultural Context: Traditional Assamese elder from Guwahati/Jorhat with deep ties to Brahmaputra river culture, tea traditions, and Bihu music.

 **Real Photo Specification:** Elderly Assamese gentleman (early 70s) with a warm, dignified smile, wearing a white cotton Kurta with a red-and-white woven Assamese Gamosa (ফুলাম গামোচা) over his left shoulder, seated outdoors on a verandah surrounded by lush Assam greenery or tea bushes.

CURRENT PLACEHOLDER 2

Patient 2: Meera Baruah (Shillong, Meghalaya – Khasi)

Code Location: mockData.js (L53), backend/seed.js (L97)

Current Flaws: "Baruah" is a classic Assamese surname, not a Khasi name. The indigenous Khasi people of Meghalaya follow a matrilineal clan naming system. The avatar (photo-1544717305-2782549b5136) is a Pinterest-style stock photo with headphones.

AUTHENTIC NER REPLACEMENT

Recommended: Kong Philamon Lyngdoh / Kong Banteilang Marbaniang

Authentic Cultural Context: Khasi elder lady ("*Kong*" is the authentic Khasi respectful honorific) from Shillong, East Khasi Hills, following matrilineal family traditions.

 **Real Photo Specification:** Khasi elder lady (late 60s) wearing the authentic Khasi traditional *Jainsem* (two-piece silk attire pinned at both shoulders) and a woolen cardigan, set against Shillong pine hills or traditional Khasi stone architecture.

CAREGIVER CLINICIAN

Recommended: Dr. Ananya Phukan / Dr. Kitboklang Marbaniang

Replaces generic "Dr. Ananya Sharma" with authentic clinical practitioners reflecting Gauhati Medical College & Hospital (GMCH) and NEIGRIHMS Shillong.

3. Family Memories & Photo Vault Audit
